

Soils: Our Past, Present, and Future

Rhode Island State Conservation Committee & Conservation Districts 2025 Seminar for Legislators

February 25, 2025, 3-4 PM
RI State House, House Lounge

Learn how RI's three conservation districts' programs:

- Ensure viability and sustainability of the state's 1,200 farms which are essential to Rhode Island's food supply and economy.
- Ensure a safe drinking water supply for all Rhode Islanders.
- Provide technical assistance and guidance in key areas of environmental concern including wildfire and flooding prevention and planning.
